Immediate Assessment & Neurological Screening

1. Course Description

Healthcare professionals have a basic knowledge and understanding of the sideline and off-field evaluation for concussion using the Sport Concussion Assessment Tool 6 (SCAT6) and the Child version (Child SCAT6). However, the Immediate Assessment/Neuro Screen, the consensus recommendation for on-field evaluation of all athletes who are suspected of having a concussion or head injury, may often be overlooked to have the immediate transfer of an athlete from the playing field to the sideline. The items involved in the on-field evaluation are essential for identifying immediate medical emergency and neurological complications, that may require on-field intervention, such as spinal mobilization or cervical collar application, or transportation to a hospital or medical center. This program will provide a comprehensive overview of the on-field evaluation, prior to administering the SCAT6. Additionally, this program will highlight clinical outcomes data related to various items in the on-field evaluation, as well as highlighting variations in assessment items, such as Maddocks Questions, AVPU scale and the FOCUS tool.

2. Speaker

Dr. Ryan Moran, PhD, ATC

3. Contact Hours

6. Target Audience

Physicians, Nurse Practitioners, Physician Assistants, Psychologists, Athletic Trainers, Physical Therapists, Occupational Therapists

7. Location/Format

Live Webinar

8. Learning Objectives

(Achievement assessed through post-course evaluation/quiz)

At the end of this course, the learner will be able to:

1. Identify on-field red flags and neurological deficits requiring immediate emergency management or removal from play.
2. Recognize sign, symptoms, and observable signs that raise suspicion for a sport-related concussion or more serious traumatic brain injury following a suspected impact or force transmitted to the brain.
3. Differentiate between neurological emergencies requiring immediate emergency action and athletes who are appropriate for a transfer to the sideline or locker room for SCAT6 administration.
4. Review different level of consciousness assessment tools, scoring methods, and data on neurological injury and recovery.
5. Apply memory assessment questions unique to your setting, sport, or patient population for the assessment of orientation and amnesia in the head injured athlete.

9. Educational Level

Beginner / Introductory / Essential

10. Course Outline

- Consensus Definitions and Step-wise evaluation on and off-field
- Overview of the Red Flags and Observable Signs for Immediate Removal from Play
- Overview of Consciousness Assessment
- Review On-Field Cervical and Cerebellar Function
- Review Memory Questions
- Overview of the CRT6 and emergency response for non-healthcare professionals
- Highlight FOCUS tool for soccer-specific on-pitch assessment
- Steps to evaluate your concussion policies

CE Credits Offered:

Athletic Trainers

ImPACT Applications, Inc. (BOC AP# P3429) is approved by the Board of Certification, Inc. to provide continuing education to Athletic Trainers. This program is eligible for a maximum of 1 Category A hours/CEUs. ATs should claim only those hours actually spent in the educational program.

Physicians

ImPACT Applications, Inc. is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA Credit Designation Statement

ImPACT Applications, Inc. designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Immediate Assessment & Neurological Screening

Course Completion Requirements

Learners must do the following to receive a valid statement of credit or certificate:

Watch the live presentation

Complete the course quiz (80% minimum passing score) and satisfaction survey

Attendance Requirements

Attendees should claim only those hours actually spent in the educational program.

Prerequisites

None

Healthcare Provider Applicability

Available upon request. Please email training@impacttest.com to request.

Special Needs Requests

Participants who have special needs are encouraged to contact program organizers so that all reasonable efforts to accommodate these needs can be made.

Included with Registration

Access to recording of the webinar for 48 hours after the live session

Presenter contact information available on request

Required Materials

ImPACT Applications training dashboard login

Speaker Standards

Statements and opinions contained in this presentation are solely those of the presenter.

Treatments and tools presented today are some of many that are available.

Presenters have agreed to demonstrate high standards of professional conduct and will not discriminate against learners on the basis of gender, age, socioeconomic or ethnic background, sexual orientation, or disability.

ImPACT Applications owns the slides presented. Attendees may not use any materials presented without written permission from ImPACT Applications.

Complaint Policy

When a participant, either verbally or in written format, files a grievance and expects action on the complaint, the following actions will be taken.

If the grievance concerns a speaker, the content presented by the speaker, or the style of presentation, the individual filing the grievance will be asked to put his/her comments in written format. The planning committee will then pass on the comments to the speaker, assuring confidentiality.

If the grievance concerns a workshop, its content, level of presentation, or the facilities in which the workshop was offered, the planning committee will mediate and will be the final arbitrators. If the participant requests action, the final arbitrator will follow the standard cancellation and refund policies.

If the grievance requires a resolution, a member of the planning committee will take necessary action.

Please contact ImPACT Applications at training@impacttest.com, (877) 646-7991 ext. 908, or +1 (412) 567-8400 to submit a complaint, or if you have additional questions.

Commercial Support

Currently, ImPACT Applications does not accept commercial support for any continuing education programs.

Conflict of Interest Policy

Available upon request

All individuals in control of content disclosed **no relevant financial relationships**.

The planning committee identified **no conflicts of interest** for this course.

Commercial Bias

The intent of this course is to promote improvements in the management of concussion. Attendees are encouraged to inform the course planning committee through the course evaluation if any commercial bias is detected.

Cancellation Policy

By the Learner: You may not cancel a video on-demand purchase. The course is available for 6 months after purchase and the individual may watch it at any time. If you are unsatisfied with the course, please contact training@impacttest.com to receive credit towards another course of equal or lesser value.

By ImPACT: If ImPACT Applications removes a course from its video on-demand library, they will first offer the individual a credit toward another course of equal value. If the individual does not want another course, the provider will refund the registration fee for the course.

Immediate Assessment & Neurological Screening

Dr. Ryan Moran, PhD, ATC
University of Alabama
Department of Health Science

Dr. Moran is an Associate Professor in the CAATE-accredited Athletic Training Program at The University of Alabama. He is currently the Director of the Athletic Training Research Laboratory and a Research Scientist for the Integrative Center for Athletic and Sport Technology and the Paralympic Sport Initiative on UA's campus. Dr. Moran is also a Research Member of the Concussion in Para Sport Group, leading initiatives related to concussion in paralympic and adaptive sport athletes. Dr. Moran's research interests include injury prevention and clinical evaluation of sport-related concussion. His primary work centers on modifying factors of sensorimotor interaction, neurocognition, and vestibular/ocular motor outcomes in adolescent and collegiate athletes. He currently serves on the Editorial Board for the Orthopaedic Journal of Sports Medicine and is a reviewer for many of the leading journals in athletic training and sports medicine. Dr. Moran, a native of Philadelphia, Pennsylvania, received his bachelor's and master's degrees in Athletic Training from East Stroudsburg University, later earning his PhD in Kinesiology from Michigan State University.
